Background

Method Of Discovery

Name, DOB, Location

Summary of findings

Background and Family:

Subject Babajide Afolabi Ogunseinde is a 49-year-old resident of Longview, Texas. Per the background search, Subject has also resided in Quincy, Massachusetts, Laurel, Maryland, Richmond, Virginia, and Allen, Texas. Ololade Ogunseinde is Subject's spouse. Joshua and Jordan Ogunseinde are Subject's children. Additional family members have been included.

Employment:

Subject is an Orthopedic Spine Surgeon at Longview Orthopedic Regional Clinic.

Social Media:

Facebook, Instagram, Threads, TikTok, X, LinkedIn, and Google accounts were located for Subject.

Before the DOI:

- Subject's first Facebook post - profile picture update (11/27/2016)
- Photos and videos of Subject with his patients post-operation (03/2018 - 05/2023)
- Family photo (04/15/2023)

After the DOI

- Photo of Subject with his colleagues (08/24/2023)
- An individual on Facebook shared a link to a news article regarding Subject's discipline (09/11/2023)
- Photo of Subject performing surgery (11/21/2023)
- Posts from Longview Regional Medical Center's Facebook page mentioning Subject (01/2024 - 03/2025)
- Photos and videos of Subject with his patients post-operation (03/2024 - 09/2024)
- Subject and his son on a boat in Barcelona (08/07/2024)
- Subject's most recent Facebook feed post (07/02/2025)
- Subject uploaded a photo of himself with another individual to his Facebook story (07/10/2025)

Findings:

Two Facebook accounts were located for Subject. The account named "profile.php?id=100077538975699" is locked. The account named "babajide.ogunseinde.2025" has its most recent feed post from July 2, 2025. The account's first post is from November 27, 2016. Before the DOI, Subject uploaded photos and videos of himself with his patients post-operation. Some examples of these posts have been included; however, more are available upon request. On April 15, 2023, Subject posted a family photo. After the DOI (08/24/2023), Subject uploaded a photo of himself with his colleagues while at work. On September 11, 2023, an individual shared a news link to an article regarding Subject's board discipline. In the comments, someone stated, "I wouldn't let Dr. O operate on a hangnail let alone my spine!" On November 21, 2023, Subject uploaded a photo of himself performing surgery. Subject can be seen on the Longview Regional Medical Center Facebook page various times between January 2024 and March 2025. On March 22, 2024, and September 19, 2024, Subject posted content relating to his post-operative patients. On July 10, 2025, Subject uploaded a photo of himself with another individual to his Facebook story.

A private Instagram account was found for Subject. The account was created in November 2016 and has 114 posts as of July 10, 2025.

A Threads account was located for Subject. The account's most recent post is from August 7, 2024. On this day, Subject uploaded a photo of himself with his son on a boat while in Barcelona.

A TikTok account with zero content was found for Subject.

Two X accounts were located for Subject. The account named "BAogunseinde" has its most recent post from July 2, 2025. The account named "BabajideOgunse1" has zero posts.

Subject's email provided by the background search, jideoguns@gmail.com, led to a Google account with one review and two photos. The most recent contribution is from approximately two years ago for a restaurant.

A possible Pinterest account was found for Subject, but could not be confirmed due to a lack of matching data points.

Information regarding Subject's Virginia Department of Health Professions license, Massachusetts Board of Registration license, and Texas Medical Board Physician License has been included. News articles covering Subject's board discipline have been included; however, a subscription is needed to access the content. Various online listings, such as Healthgrades, Google, and Health US News, show reviews and ratings for Subject. Some of Subject's negative reviews criticize his after patient care.

Subject and his spouse are named as the company contacts for EPSILON J AND J PROPERTIES, LLC. Furthermore, Subject is listed as the President for Unique Variations J&J, an organization that raises awareness for individuals with albinism. The organization's website has been included. Please see the file notes for additional information regarding Unique Variations J&J.

Court and Property Records:

Subject's most recent address per the background search, 1027 Riverwood Dr, Longview, Texas 75604, is owned by Subject and his spouse. Please note that Subject's recent address history (2 years) has been included in the report.

Date Captured: Jul 10, 2025

Snapshot:

The image shows a screenshot of a Facebook profile page. At the top, the URL 'facebook.com/babajide.ogunseinde.2025' is visible in the address bar, along with various browser icons. The main header features a profile picture of a man with glasses and a white lab coat, with the name 'Babajide Ogunseinde' in large bold letters. Below the name, it says '2.2K followers • 85 following'. To the right are buttons for 'Message', 'Follow' (which is blue and highlighted), and 'Add friend'. A scroll bar is visible on the right side of the page. The top navigation bar includes links for 'Posts', 'About', 'Reels', 'Photos', 'Videos', 'Friends', 'More', and an ellipsis. The 'Posts' section is currently selected. The 'Intro' section on the left lists the following information: 'Profile · Digital creator', 'Studied Orthopedic Surgery, Spine surgery at Harvard Medical School', 'Studied M.D. at Howard College of Medicine', 'Lives in Longview, Texas', and 'From Boston, Massachusetts'. The 'Posts' section on the right shows a pinned post by Babajide Ogunseinde from December 2, 2024, which reads: 'MIS Fusion addresses from minor spine cases to complex spinal fusion cases here in Longview Texas.' There is a blue edit icon in the bottom right corner of this post.

The screenshot shows a Pinterest profile page. At the top, there is a navigation bar with a back arrow, forward arrow, a refresh icon, and a search bar containing the URL 'https://www.pinterest.com/babajideogunsei'. To the right of the search bar are icons for a magnifying glass, a download arrow, and a 'Incognito (3)' button. Below the navigation bar is a light gray header with a search bar placeholder 'Search for easy dinners, fashion, etc.' and two buttons: 'Log in' and 'Sign up'.

The main content area features a large, light gray circular profile picture with a dark gray letter 'B' in the center. To the left of the profile picture are three small, semi-transparent circular icons: a red one with a white 'P', a blue one with a white '@', and a green one with a white 'A'.

The profile name 'Babajide Ogunseinde' is displayed in a large, bold, black font below the profile picture. Below the name is the handle '@babajideogunsei' and a small red 'P' icon. To the right of the handle is a red 'Follow' button with a white upward arrow icon.

Below the profile information are two buttons: 'Created' and 'Saved'. The 'Saved' button is underlined, indicating it is the active tab. Below these buttons, a message states 'babajideogunsei hasn't saved any Pins yet'.

Disclaimer

The information contained in this website is being made available as a public service by the Massachusetts Board of Registration in Medicine (the Board). No posted information or material provided is intended to constitute legal or medical advice. The information contained in this website is drawn from information provided to the Board by individual licensees licensed in Massachusetts and reported to the Board from other sources, and the Board cannot guarantee its accuracy or the accuracy of information on other sites accessible through links herein. The Board of Registration in Medicine currently publishes a Profile for each licensee who has an Active Massachusetts license. Certain adverse information reported to the Board and published on a Licensee's Profile (Massachusetts malpractice payments, Massachusetts criminal actions, Board discipline, Massachusetts health care facility discipline and discipline by licensing boards in other states, as applicable) is included only if it occurred after November, 1986. The discipline by licensing boards in other states and the criminal activity information which is on a Licensee's Profile may not be comprehensive. The Board makes no representations or warranties, either express or implied, by providing information through this web site, and the presence of an individual on the Board's website does not in any way constitute an endorsement by the Board or the Commonwealth of Massachusetts. For more information regarding any information found on the Board's website, please contact us directly at ma.profiles@mass.gov.

Please note that this licensee does not have an active license and therefore cannot practice medicine in the Commonwealth of Massachusetts. The Board collects information for the years 1986 through the present from multiple sources, including the physician, to create a profile. This licensee has a license that is not active and may not have provided current information to the Board, therefore information on the profile may not be current. If the Board receives notice of an adverse action, and the adverse action is verified, the Board will update the profile accordingly.

The unconscious bias..... I am an immigrant and I sit here on a 70 degree saturday evening In the month of May in small town, Longview Texas thankful for where I stand today, reminiscing on my humble uncertain beginnings , a young black man pursuing my dream to become a physician like my father a pediatrician. A man of few flaws realizing my young zeal at the time and guiding my path to where I am now . My mother was always present never left my side either always supporting my father and us the children. Now It's my turn with two sons to show them a path in their growth in this life and country that I truly love. I sit here now and I cannot help but ponder about the uncertainties of life and how lucky I am to be where I am today, healthy and alive but I also start to think and reflect on the events of the past month, yes just one month thinking of all the things the human mind as had to endure. The invincible evil killer virus, deadly diseases, the thousands dead, millions afflicted from diseases from the virus, the massive economic woes, huge unemployment woes, ridiculous conspiracy theories, the uncertainty of life itself and yes, inherent racial bias and prejudice . Of all the major things I mentioned above none of them are mostly controllable by our each individual will power except the inherent racial bias and prejudice. This is an unfortunate truth. This is an unconscious bias that is suppressed by the conscious mind which is your moral compass . The conscious mind corrects the unconscious bias for example when you have to say out loud "but I have black friends " or "I have nothing against black peoplebut". That is the conscious mind suppressing or reassuring the inherent bias from the unconscious mind when challenged. Each one of us have no real power against the virus, unemployment woes, conspiracy theories, diseases. But inherent bias and prejudice we all have it. We have the power to suppress it good or bad . What later happens is that if your moral compass or unconscious unbiased mind is not healthy, flexible or strong then the term concept creep occurs. What is concept creep ? It is the expanding concepts in psychology of harm, pathology and the unconscious expanding of a definition like inherent bias in explaining limitation of an individual or race. For example the killing in Georgia of a black man was predicated on an inherent bias that a black man running or just jogging in what I presume is a white neighborhood is suspicious so it triggers or overloads the unconscious mind bias (of someone who already is racially biased , prejudiced or uncomfortable) that this colored man running somewhere must be bad or must have done something bad so is running away from something . Everything else in their justification of pursuing and killing him was just extra, for example the rumor of previous burglaries in the area story (remember the inherent unconscious bias will formulate a reasoning for the conscious mind behind the action at hand to make it seem reasonable). The other commonly used phenomenon is the victimhood culture. For example a recent Facebook and other social media page posted called the shooters or killers as God-fearing men protecting their neighborhood so they ask for public support. They have over 30k members last time I checked . This argument assumes that the victim must be an evil non-God fearing human that just happens to be black. The recent Michigan heavily armed citizen militia story standing tall armed yelling at police is another example of inherent racial bias . Is it completely okay to be carrying live assault weapons with ammunition and tactical gear in large numbers yelling at police in protest and with fingers on or close to the trigger but it's not acceptable to kneel in peaceful protest during an anthem with no guns against injustice ? or whatever they wish to protest? Let your inherent bias answer that question... I am not advocating that either one is bad or good but I'm explaining the inherent bias of this. One group was black and the other white. Go figure which one was

which . My point is that both sides should be able to protest against injustice however they feel. You don't have to like it or agree with it. Life will always go on with or without you and your inherent biases. Back to concept creep and victimhood I will agree that concept creep and victimhood can be played out unfairly by many people, races, religion, sexuality, gender etc. but the involvement of citizens right to kill another human being without substantial cause in the disguise of fear of the person or in doing Gods work has to give us pause. No human being, citizen or police has more right on this earth than another human being. Bad guys we all agree should be punished by laws of the land enforced by unbiased police force not random jungle justice . Self defense argument does not even work here in the Georgia case. In Ecclesiastes 9:2 "Everything is the same for everyone. The same fate awaits the righteous and the wicked, the good and the bad, the pure and the impure," So regardless your time will come..... from dust we were made and to dust we will all return every one of us . No one however has the right to prematurely take a life because ones appearance alone threatens their existence . Never ! Finally I will say that there's always hope in any bad situation. Hope to overcome deadly diseases, hope to overcome toxic inherent unconscious biases, hope for a better future for us and our children, hope for a new job . I love to hope. Hope builds endurance and endurance builds character .Hope takes us to unforeseen places and dreams. Dreams take you to a different unique manifestation of hope. Love and hope must prevail . We cannot crawl into the pits of hatred and inherent racial distrust. No future lies in these pits. Americans respectfully talk about the Bible and attend churches more than any country I know (maybe not Nigeria ☺) so I urge people to act like they believe the word they read. The Bible is not for racial division or devoted to a specific race, it's written for ALL ! Romans 5:1-5, Reads Therefore , since we ALL have been made righteous through his faithfulness, we ALL have peace with God through our Lord Jesus Christ. We ALL have access by faith into this grace in which we ALL stand through him, and we ALL boast in the hope of God's glory. We ALL even take pride in ALL our problems, because we ALL know that trouble produces endurance, endurance produces character, and character produces hope. This hope doesn't put us ALL to shame, because the love of God has been poured out in ALL our hearts through the Holy Spirit, who has been given to ALL. Let's ALL therefore practice what we have been taught and we preach. We are ALL Americans! I always wonder what tomorrow will bring From Longview Texas ...

The unconscious bias.....

I am an immigrant and I sit here on a 70 degree saturday evening In the month of May in small town, Longview Texas thankful for where I stand today, reminiscing on my humble uncertain beginnings , a young black man pursuing my dream to become a physician like my father a pediatrician. A man of few flaws realizing my young zeal at the time and guiding my path to where I am now . My mother was always present never left my side either always supporting my father and us the children. Now It's my turn with two sons to show them a path in their growth in this life and country that I truly love.

I sit here now and I cannot help but ponder about the uncertainties of life and how lucky I am to be where I am today, healthy and alive but I also start to think and reflect on the events of the past month, yes just one month thinking of all the things the human mind as had to endure. The invincible evil killer virus, deadly diseases, the thousands dead, millions afflicted from diseases from the virus, the massive economic woes, huge unemployment woes, ridiculous conspiracy theories, the uncertainty of life itself and yes, inherent racial bias and prejudice . Of all the major things I mentioned above none of them are mostly controllable by our each individual will power except the inherent racial bias and prejudice. This is an unfortunate truth.

This is an unconscious bias that is suppressed by the conscious mind which is your moral compass . The conscious mind corrects the unconscious bias for example when you have to say out loud "but I have black friends " or "I have nothing against black peoplebut". That is the conscious mind suppressing or reassuring the inherent bias from the unconscious mind when challenged.

Each one of us have no real power against the virus, unemployment woes, conspiracy theories, diseases. But inherent bias and prejudice we all have it. We have the power to suppress it good or bad .. What later happens is that if your moral compass or unconscious unbiased mind is not healthy, flexible or strong then the term concept creep occurs.

What is concept creep ? It is the expanding concepts in psychology of harm, pathology and the unconscious expanding of a definition like inherent bias in explaining limitation of an individual or race. For example the killing in Georgia of a black man was predicated on an inherent bias that a black man running or just jogging in what I presume is a white neighborhood is suspicious so it triggers or overloads the unconscious mind bias (of someone who already is racially biased , prejudiced or uncomfortable) that this colored man running somewhere must be bad or must have done something bad so is running away from something . Everything else in their justification of pursuing and killing him was just extra, for example the rumor of previous burglaries in the area story (remember the inherent unconscious bias will formulate a reasoning for the conscious mind behind the action at hand to make it seem reasonable).

Very helpful in explaining the procedures I need. My prep op lab work will require infusions for several months. I am very confident that the surgeries will go well when I can have them.

While I've only seen Dr O a few times and of those two in the past and one recently following an MRI that he ordered on my spine & back due to extreme pain mostly on the entire **right** side of my body. My diagnosis is severe spinal stenosis and I also have a rare blood disorder that he has taken into high consideration and has referred me to a local hematologist. Dr O. is very thorough on his description of the disease as well as the surgery that is a necessity in order for relief of the pain & numbness that I am experiencing. I just naturally felt that he is much deserving of his bedside manner and is a five star in my book. Thank you Dr O for your care I am confident that his surgical experience and recognition will be a welcoming in a surgery that I'm otherwise nervous about as I mentioned his bed side manner.

Gods Will I am an example of the product of what happens when you find favor in man sent by God and by Gods grace.....it is all Gods doing. Be thankful to the man and pray for the man he sends even if that man has no idea the power of his favor or power of his presence in your life. It is not by his power or influence alone but Gods. I say this confidently as an ordinary man because I have seen it and witnessed it and believe me it is Gods doing. The truth is that finding favor in one man sent by God is bigger than having ten hateful men trying to pull you down. Tough situations in life will always come but knowing that He (God) that started a good thing in your life will finish it or perfect it reassures you and strengthens your conviction. You will finish your race well as long as you stay in your lane that God has chosen for you.....Amen. Don't worry about the progress of the other lanes. Focus on your lane and the products of your existence (your children). I say all this not as a religious man or devout Christian but as an ordinary man that believes that God exists and looks over his chosen people no matter what your life situation is while I also acknowledge the awesome power he has to get us through life situations that we cannot imagine we are in or that we are trying to get out from. He gets us out from hopelessness to hopefulness through our faith in him and the belief in his unseen spirit. That man.....that brings you unimaginable favor beyond your dreams and expectations was sent by God. Never doubt that. It's not by his power or your power or might but by His spirit says the Lord. Enjoy the rest of your days. It is well !! ☺☺☺

Gods Will

I am an example of the product of what happens when you find favor in man sent by God and by Gods grace.....it is all Gods doing. Be thankful to the man and pray for the man he sends even if that man has no idea the power of his favor or power of his presence in your life. It is not by his power or influence alone but Gods. I say this confidently as an ordinary man because I have seen it and witnessed it and believe me it is Gods doing.

The truth is that finding favor in one man sent by God is bigger than having ten hateful men trying to pull you down. Tough situations in life will always come but knowing that He (God) that started a good thing in your life will finish it or perfect it reassures you and strengthens your conviction. You will finish your race well as long as you stay in your lane that God has chosen for you.....Amen. Don't worry about the progress of the other lanes. Focus on your lane and the products of your existence (your children).

I say all this not as a religious man or devout Christian but as an ordinary man that believes that God exists and looks over his chosen people no matter what your life situation is while I also acknowledge the awesome power he has to get us through life situations that we cannot imagine we are in or that we are trying to get out from. He gets us out from hopelessness to hopefulness through our faith in him and the belief in his unseen spirit.

That man.....that brings you unimaginable favor beyond your dreams and expectations was sent by God. Never doubt that. It's not by his power or your power or might but by His spirit says the Lord. Enjoy the rest of your days. It is well !! 

O

Subject was disciplined by the Texas Medical Board on August 18, 2023. According to the Texas Medical Board Press Release, Dr. Ogunseinde failed to meet the standard of care with respect to the pre-op clearance and informed consent with the patient

Texas Medical Board Press Release

FOR IMMEDIATE RELEASE

September 11, 2023

Media contact: Jarrett Schneider, 512-305-7018

Customer service: 512-305-7030 or 800-248-4062

TMB disciplines 27 physicians at August meeting

At its August 18, 2023 meeting, the Texas Medical Board disciplined 27 licensed physicians.

The disciplinary actions included: three orders related to unprofessional conduct, nine orders related to quality of care, three voluntary surrenders/revocations, one revocation, one restriction, five orders related to nontherapeutic prescribing, two orders related to improper supervision or delegation, one order related to violation of Board rules, and two orders related to other states' actions. The Board also ratified one cease and desist order.

The Board issued 267 physician licenses at the August meeting. The Board issued a total of 7,060 physician licenses in Fiscal Year 2023.

DISCIPLINARY ACTIONS

UNPROFESSIONAL CONDUCT

Doctor, Shreenath, M.D., Lic. No. J4088, Bellaire

On August 18, 2023, the Board and Shreenath Vasant Doctor, M.D., entered into a Mediated Agreed Order requiring him to within one year complete the professional boundaries course offered by the University of California San Diego Physician Assessment and Clinical Education (PACE) program; and within one year complete at least four hours of CME in patient-physician communications. The Board found Dr. Doctor failed to provide medical records upon the request of a subsequent provider regarding one minor patient, as well as upon request of the parents, and failed to maintain appropriate boundaries in his communications with the patient's parents when he misinterpreted the parents' joint custody agreement and appeared to take sides during the course of the parents' underlying custody dispute. The order resolves a formal complaint filed at the State Office of Administrative Hearings.

Massare-Rodriguez, Jorge Eduardo, M.D., Lic. No. M7577, Longview

On August 18, 2023, the Board and Jorge Eduardo Massare-Rodriguez, M.D., entered into an Agreed Order requiring him to have a chaperone anytime he performs a physical examination on a female patient; within one year and three attempts pass the Medical Jurisprudence Exam; and comply with all terms of his employer agreement entered on February 14, 2022. The Board found Dr. Massare-Rodriguez admitted that he examined two patient/employees outside of the clinic, did not create a medical record and failed to establish a formal physician-patient relationship.

Yazdani, Shabaz Ahmed, M.D., Lic. No. L5188, San Antonio

On August 18, 2023, the Board and Shabaz Ahmed Yazdani, M.D., entered into a Mediated Agreed Order Upon Formal Filing requiring him to submit a Board approved policy that he shall have a chaperone present anytime he examines a female patient; within one year and three attempts pass the Medical Jurisprudence Exam; within one year complete the professional boundaries course offered by the University of California San Diego Physician Assessment and Clinical Education (PACE) program; and within one year complete at least 16 hours of CME, divided as follows: eight hours in risk management, four hours in HIPAA and four hours in ethics. The Board found Dr. Yazdani engaged in unprofessional conduct with a patient who he met about a potential shadowing opportunity at Dr. Yazdani's practice and contacted the patient using her social media messaging account. The order resolves a formal complaint filed at the State Office of Administrative Hearings.

QUALITY OF CARE

Birkholz, Christopher, M.D., Lic. No. P1728, Temple

On August 18, 2023, the Board and Christopher Birkholz, M.D., entered into an Agreed Order requiring him to within one year complete at least 12 hours of CME, divided as follows: eight hours in high-risk obstetrics and four hours in medical recordkeeping. The Board found Dr. Birkholz was responsible for lab follow up as he ordered the initial prenatal labs. Patient was not notified of the results and Dr. Birkholz was unable to document the need for further monitoring in her chart due to medical record software.

Brown, Benton Lee, M.D., Lic. No. P6788, Abilene

On August 18, 2023, the Board and Benton Lee Brown, M.D., entered into an Agreed Order requiring him to within one year complete at least 16 hours of CME, divided as follows: eight hours in risk management and eight hours in communications. The Board found that Dr. Brown fell below the standard of care by inappropriately managing a patient who had complications post-surgery.

Debba, Bachir, M.D., Lic. No. P4301, Houston

On August 18, 2023, the Board and Bachir Debba, M.D., entered into an Agreed Order requiring him to within one year and three attempts pass the Medical Jurisprudence Exam; within one year complete the medical recordkeeping course offered by the University of California San Diego Physician Assessment and Clinical Education (PACE) program; within one year complete at least 24 hours of CME, divided as follows: eight hours in supervision/delegation, four hours in risk management, four hours in ethics, four hours in psychiatry/legal commitment and four hours in patient communication; and within 60 days pay an administrative penalty of \$3,000. The Board found Dr. Debba failed to meet the standard of care and keep adequate medical records for two patients treated for psychiatric conditions and detained the patients against their will beyond the initial 48-hour period without an order of protective custody.

Martinez, Ruben D., Lic. No. F1783, Harlingen

On August 18, 2023, the Board and Ruben D. Martinez entered into an Agreed Order requiring him to within one year and three attempts pass the Medical Jurisprudence Exam; and within one year complete at least 16 hours of CME, divided as follows: eight hours in prescribing controlled substances, four hours in risk management and four hours in medical recordkeeping. The Board found Dr. Martinez inappropriately prescribed controlled substances to a patient with whom he has had a close personal relationship for several years, and that his documentation was inadequate.

Ogunseinde, Babajide Afolabi, M.D., Lic. No. N6546, Longview

On August 18, 2023, the Board and Babajide Afolabi Ogunseinde, M.D., entered into an Agreed Order requiring him to within one year complete at least 12 hours of CME, divided as follows: eight hours in pre-op clearance of high-risk patients and four hours in informed consent. The Board found Dr. Ogunseinde failed to meet the standard of care with respect to the pre-op clearance and informed consent with the patient.

Parcells, Jeremy Patrick, M.D., Lic. No. P7967, Mansfield

On August 18, 2023, the Board and Jeremy Patrick Parcells, M.D., entered into an Agreed Order requiring him to within one year complete at least 16 hours of CME, divided as follows: eight hours in evaluation and management of acute abdomen, four hours in medical recordkeeping and four hours in patient communication. The Board found Dr. Parcells' delay in seeing a patient after performing a surgery did not meet the standard of care and was the subject of disciplinary action based on the treatment of the patient.

Salam, Omar, M.D., Lic. No. S0791, Corinth, MS

On August 18, 2023, the Board and Omar Salam, M.D., entered into an Agreed Order requiring him to within one year complete at least eight hours of CME in obstetrical complications. The Board found Dr. Salam's estimation of initial blood loss for Patient 1 was not supported by Patient 1's clinical presentation documented in the records and that Dr. Salam should have taken Patient 3 to surgery instead of relying on medication management.

Schwartz, David Paul, D.O., Lic. No. J2316, Houston

On August 18, 2023, the Board and David Paul Schwartz, D.O., entered into an Agreed Order requiring him to have his practice monitored by another physician for eight consecutive monitoring cycles; within one year and three attempts pass the Medical Jurisprudence Exam; and within one year complete at least 12 hours of CME, divided as follows: four hours in drug-seeking behavior, four hours in risk management and four hours in medical recordkeeping. The Board

Dr. Massare is excellent, and these ridiculous charges would never cause me not to trust him with my care. He is incredibly knowledgeable and goes above and beyond to show that he genuinely cares for his patients. Both he and his wife provide excellent healthcare to their patients and they are much needed assets to the Longview medical community. God bless you, Dr. Massare and family.

Basically these 2 MDs aren't doing anything that any other MD hasn't done. Their files just got pulled for audit and it hadn't been done so LNJ decides to publish it. How many times has another health professional asked a MD to examine them as a courtesy and they did it? And Dr. O. Is just required education that had lapsed.

Dr. Massare is one of the best providers I've ever met. When it comes to a physician, it's very rare to come across one that is as genuine as he is.
Not only did I have the privilege of working for him years ago but I got to know him and his wife.
For someone in a position that he's in, being very well known and nationally recognized for his many accomplishments- he isn't someone that's prideful. As a matter of fact, he's extremely humble. One example being that even though I had not seen him in years, he and his wife made time to attend my child's funeral last year. During times like that, you always remember who was there.
He's someone who actually cares about what he does. Longview needs Dr. Massare.

My husband has used both of these doctors. We have been very pleased. Dr. Massare did an ablation on my husband and he also put in a pacemaker/defibrillator. My husband received a new heart three years ago this coming January. The night we arrived at Baylor Scott and White to receive my husband's new heart we received a phone call from Dr. Massare. He called to check on us and asked if he could pray with us over the phone before my husband's heart transplant surgery. Dr. O performed several surgeries on my husband over the past ten years. He always went past the call of duty to call and follow up after my husband's surgeries. Both of these individuals are fine men and doctors. My family will continue to use them.

LONGVIEW, Texas ([KETK](#)) – The Texas Medical Board announced on Monday they had disciplined 27 physicians at their August meeting, including two Longview doctors.

[| Coffee City Police Department deactivated, police chief terminated ➤](#)

According to the Board, Dr. Jorge Eduardo Massare-Rodriguez entered an agreed order on Aug. 18 that requires him to have a chaperone anytime he performs a physical examination on a female patient. He must also pass the Medical Jurisprudence Exam within one year and three attempts.

According to the Board, Dr. Jorge Eduardo Massare-Rodriguez entered an agreed order on Aug. 18 that requires him to have a chaperone anytime he performs a physical examination on a female patient. He must also pass the Medical Jurisprudence Exam within one year and three attempts.

"The Board found Dr. Massare-Rodriguez admitted that he examined two patient/employees outside of the clinic, did not create a medical record and failed to establish a formal physician-patient relationship," the medical board said in a release.

A second Longview physician, Dr. Babajide Afolabi Ogunseinde, was found to have failed to meet the standard care with respect to the pre-op clearance and informed consent with the patient, according to the medical board.

-00:10

Smith County accidentally releases inmate, now charged with 3rd degree felony

Ogunseinde entered an agreed order on Aug. 18, and the Board said it requires him to complete at least 12 hours of CME within one year divided into eight hours in pre-op clearance of high risk patients and four hours of informed consent.

LONGVIEW, TX (January 26, 2024) – Today, Longview Orthopedics Regional Clinics (LORC) announced a significant expansion as eight orthopedic surgeons and four midlevel providers of Longview Orthopaedic Clinic Association (LOCA) are joining the Regional Clinics family effective February 1st, 2024. The providers will have practice locations in Longview and Marshall. LOCA has been one of the longest-established and largest surgical practices in East Texas specializing in orthopedic surgery, earning strong respect throughout the region and caring for thousands of patients over more than 75 years. "We look forward to welcoming these skilled providers from Longview Orthopaedic Clinic Association into the Longview Regional Medical Center and Regional Clinics family," said Steve Gordon, Chief Executive Officer of Longview Regional Medical Center. "We have had a long relationship with these clinicians who have been providing high-quality healthcare to patients throughout our community for so many years." The providers transitioning to LORC are the following: □ Jonathan Fontenot, MD – Orthopedic Spine Surgery □ Martin Hilton, MD – Orthopedic Surgery □ Babajide Ogunseinde, MD – Orthopedic Spine Surgery □ Matthew Porter, MD – Pain Management □ Kenneth Reesor, MD – Orthopedic Spine Surgery □ Joshua Russell, MD – Orthopedic & Sports Medicine Surgery □ Jordan Stanley, MD – Orthopedic Surgery □ Thomas Taylor, MD – Orthopedic Surgery □ Sarah Dawson, NP – Nurse Practitioner Orthopedic Spine Surgery □ Amber James, NP – Nurse Practitioner Pain Management □ Tiffany Smith, PA- Physicians Assistant Spine Surgery □ David Stanley, PA- Physicians Assistant Orthopedic Surgery The clinical providers are committed to providing quality orthopedic care, with highly-trained surgeons utilizing advanced medical technologies and a patient-centric approach to orthopedic services. All of the surgical providers are trained in general orthopedics. "It's exciting to work together more closely with the Longview Regional Medical Center leaders who share our vision of providing highest quality patient care, training and innovation in orthopedics," said Dr. Jordan Stanley, MD, Orthopedic Surgeon. "We are excited to join an active, integrated, high-quality healthcare system like Longview Regional Medical Center and continue to provide orthopedic care to all of East Texas." Longview Regional Medical Center has performed more than 500+ robotic assisted joint replacement procedures since offering patients the technology in 2017. LRMC's Operating Room is equipped to care for patients with two large ortho-dedicated robotic surgical suites and two large surgical suites for spinal procedures. Additional orthopedic surgical services include various bone fracture repairs, scopes, foot surgery, hand surgery, pain management and sports medicine procedures. "Longview Regional Medical Center has been investing in the resources to provide patients with advanced orthopedic procedures and treatment to serve patients close to home," said Kenneth Reesor, M.D., Orthopedic Spine Surgeon. "We are excited to become a part of LORC and will continue to deliver innovative orthopedic care for our East Texas neighbors and community."

Babajide Ogunseinde, M.D., is a board-certified orthopedic spine surgeon with Longview Orthopedics Regional Clinics. Dr. Ogunseinde attended college at Virginia Commonwealth University in Richmond, Virginia, and medical school at Howard University in Washington, DC. He attended residency for Harvard Combined Orthopedic Surgery at Harvard Medical School in Boston and completed his fellowship in spine surgery at Harvard Medical School. Dr. Ogunseinde has been practicing in East Texas since 2010 and is a member of the AOA Medical Honor Society, the American Academy of Orthopedic Surgeons, the North American Spine Society (NASS) and is a AOSpine Member. Dr. Ogunseinde specializes in the diagnosis and treatment of surgical conditions of the adult cervical, thoracic and lumbar spine. He offers spine care of a range of spinal conditions, from acute injuries and degenerative conditions of the neck (including cervical disc replacements) and lower back (such as disc herniations, spondylolistheses, and spinal stenosis), to more complex conditions such as adult scoliosis, spinal infections, fractures and spine tumors. He performs complex scoliosis correction surgery in adults both staged and unstaged. He also performs minimally invasive spine surgery, which includes kyphoplasty for osteoporotic compression fractures and other pathologic fractures from tumor. He also performs percutaneous pedicle screw stabilization for spine trauma and degenerative spinal conditions, as well as sacroiliac joint fusions. He has interests in general orthopedics including orthopedic trauma. To learn more about Dr. Ogunseinde, visit <https://bit.ly/3TMYinN>

Longview Regional Medical Center is proud to announce that Dr. Babajide Ogunseinde, a distinguished orthopedic spine surgeon, recently delivered a lecture on the sacroiliac (SI) joint at the renowned Hospital for Special Surgery (HSS) in New York City. Dr. Ogunseinde, known for his expertise in spine surgery and innovative treatment approaches, provided an in-depth analysis of the SI joint's anatomy, function, and its significance in maintaining pelvic stability. His lecture covered the latest diagnostic techniques, treatment options, and surgical interventions for SI joint dysfunction, a common but often overlooked cause of lower back pain. The Hospital for Special Surgery (HSS), known for its excellence in orthopedic and rheumatologic patient care, education, and research, provides an ideal platform for Dr. Ogunseinde to share his insights with the next generation of medical professionals. "We are proud to have Dr. Ogunseinde represent Longview Regional Medical Center and Regional Clinics as guest faculty at the world's #1 hospital for orthopedics," said Steve Gordon, CEO of Longview Regional Medical Center. "His contribution is consistent with our commitment to advancing medical knowledge and improving patient care through education and collaboration." Dr. Ogunseinde has been a pivotal figure in the field of orthopedic spine surgery, contributing to numerous research studies and publications. His dedication to patient care and education has earned him accolades from both peers and patients alike. For further details and to learn more about Dr. Ogunseinde, please visit www.regionalclinicsetx.com.

I was so happy to find an orthopedic that took my symptoms seriously- after years of pain in my lower back and hips, Dr Ogunseinde performed the bilateral SI joint fusion on me and 6 months out now, I no longer feel pain while sitting or standing as well as my back pain really improved. He has the best patient care I have found! Strongly recommend him!!

Proud to have to him as my doctor and my friend.. for people that come from all over to see this doctor... That speaks volumes!
I wish all doctors were like Dr. O!!

Dr. Babajide Ogunseinde, a Harvard trained Orthopedic Spine Surgeon with Longview Orthopedics Regional Clinics collaborated to design a unique posterior medial to lateral technique (PML) for treating sacroiliac joint dysfunction. This technique originated at Longview Regional Medical Center and it is now an FDA approved method of sacroiliac joint dysfunction treatment for our local community here in Longview. This minimally invasive approach makes it easy to address bilateral sacroiliac dysfunction with one surgery and with a small 2 cm incision. This new minimally invasive procedure offers East Texas patients' reassurance of the commitment to stay on the cutting-edge of treatment options. This technique has been approved for nationwide teaching to spinal surgeons that perform sacroiliac joint fusions. The innovative technology offers a specially designed, 3D-printed implant that stabilizes and fuses excessive motions of the sacroiliac joints, as well as simplifies minimally invasive sacroiliac (SI) joint fusions— all with minimal soft tissue trauma and minimal to no blood loss in surgery. This advanced technology and technique have proven successful in producing early pain relief after surgery with no weight bearing restrictions post operatively, offering improved quality of life where many other treatments and surgical options have proven unsuccessful. The minimally invasive surgery consists of 3D printed cannulated cylindrical, titanium (Ti 6Al4V ELI) implants with a porous surface and fenestrations for both on growth and in-growth bony fusion across the bone-metal interface. The instrument system uses guide pins and parallel guides for accurate placement. Benefits of the PML minimally invasive surgical procedure are:

- Minimally invasive surgical approach can be done through a single small 1.5-cm incision
- Single surgeon position for fixing both SI joints
- Minimal blood loss
- No weight bearing restrictions after surgery
- Designed trajectory is away from any neurovascular structure
- Easily reproducible

LONGVIEW, Texas — A Longview orthopedic spine surgeon recently received approval from the Federal Drug Administration for a unique method used to treat lower back pain, specifically sacroiliac joint dysfunction.

Dr. Babajide Ogunseinde, a Harvard-trained orthopedic spine surgeon with Longview Orthopedics Regional Clinics, designed a unique posterior medial to lateral technique to treat sacroiliac joint dysfunction. The method started at Longview Regional Medical Center, and it's now an FDA approved method used to treat East Texas patients.

"There are many other techniques that have been published in the spine literature about circular fusion and those involve multiple incisions, longer surgeries," Ogunseinde said. "They're more painful. Patients have weight barrier restrictions for about a month to six weeks, and it involves a longer procedure and more blood loss. So this procedure that we started at Longview Regional was inspired by looking for a way to reduce those factors, the pain, the bleeding, the multiple incisions."

The procedure easily addresses bilateral sacroiliac dysfunction with one surgery and with a small 2 centimeter incision.

According to Longview Regional, this technology offers a specially designed, 3D-printed implant to stabilize and fuse excessive motions of the sacroiliac joints. The implant also simplifies minimally invasive sacroiliac joint fusions with little soft tissue trauma and little to no blood loss in surgery.

Ogunseinde said after going through the process of FDA approval, he and his team were happy to open up the procedure to the public.

Through this technology, there has been earlier pain relief post-surgery with no weight bearing restrictions after the operation, which offers an improved quality of life when other options have been unsuccessful.

Some benefits of this procedure include:

- Minimally invasive surgical approach can be done through a single small 1.5-cm incision
- Single surgeon position for fixing both SI joints
- Minimal blood loss
- No weight bearing restrictions after surgery
- Designed trajectory is away from any neurovascular structure
- Easily reproducible

Ogunseinde said people who are at risk for sacroiliac joint dysfunction are women, patients who are considered overweight, patients with multiple children, those who have trauma to pelvis or SI joint. He said about 30% of patients that have back pain have SI joint pain.

"So 10 to 15 years ago, when we didn't know anything about SI joint dysfunction, we just thought patients were not being honest or felt like they had some psychosomatic problems. But now that we know that SI joint is a problem, especially for low back pain. When you see a patient with a normal MRI and physical exam that correlates with SI joint dysfunction, we definitely go after that," he said. "And we've had so much success with identifying this and treating this either non-surgically and surgically."

The procedure only takes a day, and Ogunseinde even jokes with patients they can stop for lunch on their way home because the anesthesia lasts about 20 to 25 minutes for surgery and recovery is just 30 minutes.

"Typically, our discharge patients home on oral pain medication. They can shower, they can drive in about one or two days if they're off the pain medication. So the restrictions (and) the pain is less," he said. "We don't have any restrictions for this surgery. We've had patients within two, three days sending us emails about how great they feel after the surgery."

My husband is 12 weeks post-op from his back surgery by Dr. O. We have had nothing but a good experience. Although he talks fast, he explains everything that has happened, is happening & will happen. He is more than happy to answer even the smallest questions from a worried wife. Dr. O is always professional yet personal at his office & the hospital. His staff is easy to work with & Melanie has been amazing! I appreciate his attention to detail & his sense of humor!

What went well

- Office environment
- Appointment scheduling
- Listened & answered questions
- Explained conditions well
- Staff friendliness
- Appointment wasn't rushed
- Trusted the provider's decisions
- Wait times

What could be improved

As a patient I feel Dr.O does not listen to your concerns, he believes he is correct and does not check far enough into your situation. I would recommend everyone to get a second opinion before following through on his diagnosis or you could end up having surgery for nothing and having the same symptoms as before the surgery.

The stories I heard before coming here, the comments here, and comments heard while in the hospital shortly after my surgery (from nurses in outpatient!) all reflect the experiences I had as well. I was warned beforehand by at least two different people not to use them, but couldn't find anywhere else to go quickly. Dr. Ogunseinde was the doctor I saw and who ended up performing my surgery. To be clear, I like Dr. O and think he himself did a great job. However, the staff is absolutely TERRIBLE!

😊 What went well

- Office environment
- Explained conditions well
- Trusted the provider's decisions

😊 What could be improved

- Difficult to schedule appointment
- Staff wasn't friendly
- Long wait times

Meeting with Dr. O was helpful and he was very easy to speak with. His staff is his problem. The office manager called me only to be difficult and leave me frustrated. Only to find out she left notes in my account so that her unhelpful behavior varied over to others. After requesting call backs/ appointment several times and not receiving a call, I had no choice but to find another doctor. Sad because I was comfortable with Dr. O.

Performed a SI joint fusion for my mother. Didn't mention anything about muscle spasms, so we found out when picking up her pain meds that he had prescribed something for those that she was allergic to and couldn't take. The pain medication was also too strong for her stomach and made her puke. So on top of enduring the surgery pain that people usually get through with powerful painkillers, the area was spasming and making it even worse. We had to rely on the ER for help. A week after surgery and constant calling, his assistant agreed to an appointment only to tell us he wasn't going to give us anything different and to deal with it. We called nearly every day for the next month with him refusing to see her, still relying on the hospital for relief. He only relented after I reported him to hospital management, and then he used the appointment to officially drop her as a patient. This man is a tyrant and should not be allowed to practice medicine.

Dr. O just did a SI joint fusion for me last week. He has always got a great bed-side manner. Surgeries prior to mine that day through his timing behind but you would never know it. He is a straight shooter when discussing your case with you, & takes his time, (never seems in a rush). I have another family member who is Dr. O's Patient - we just care for him. Many Dr's have a better than you attitude but he is very down to earth.

Dr. Ogunseinde is a brilliant, respectful and caring person. My experience with Dr. Ogunseinde has been wonderful. He always takes his time explaining the issue to his patients in a manner that they can completely understand, he's very relatable and he's always spot on with his clinical diagnosis! I couldn't ask for a more efficient and better doctor.

Dr. O is great. I actually had another surgeon do my previous spine and cervical surgeries. However, due to change in Insurance the previous surgeon was not available to me. Dr. O is a great listener and for my experience is very personal with his patients. That's a great quality in anybody that's going to be doing surgery on you for sure. My only frustration is the inability to have access to him through a patient portal. I personally had some complications after surgery that were not actually not related to the operation. But, with me just having surgery, I had many questions about my post op symptoms and it's very difficult to get past the nurses and get direct answers from Dr. O unless you have a scheduled appointment and that's very frustrating for a patient who's just had surgery. I personally had most of my issues with the home health that was assigned to me than I

Overview Experience Insurance Ratings About Me Locations Hospitals

CEO Ron Short. I have attempted to contact you several times regarding the treatment I endured by your longview Office manager, Dr. O's nurse and MA. I attempted many times to contact Dr. O himself with no luck. I was forced to seek another group and NOT due to Dr. O. I have contacted BCBS with a grievance regarding staff not something you would appreciate with your facility. I still have not had surgery since I had to start all over again with another group. I have gone months in pain. Though it is nice to read positive reviews mine experience however was all but that. As a health care professional I understand the stress staff members can be under. However, they are dealing with people who are ill and in pain. If you take your frustrations out on a patient, especially those who serve no warrants then, it's time to seek another profession. I have not yet posted my experience and I do hope you reach out to me before to resolve this issue. My first visit was 6/29/2020.

I have received exemplary care from Dr. "O" since my tragic fall in November, breaking my neck and my left arm in two places. He is never too busy to show me the ex rays or CT scans , explaining it in detail. He is kind, patient, and always hopeful with me. My C2 was fractured and that can leave one paralyzed. He was cautious and did not rush into spine surgery. I had never met him before the accident, and he was "on call" and appointed to treat me. How blessed I am to have received him to take care of me! I am 76 years old so it is comforting to have someone you can totally trust with your health issues. I find him to be very knowledgeable about all orthopedic questions that I address to him. I would highly recommend him for any of your back/neck orthopedic needs.

Overview Experience Insurance Ratings About Me Locations Hospital

Everyone that I interacted with was pleasant & professional. My visit was short, however I did leave with clear information regarding my condition. I also received timely contact with instructions for the next step in my treatment. After having a MRI, Dr O recommended that I have injections in my spine. I was not ready for that step. At this point, I believe that I prefer physical therapy. Shots will be a last resort for me. I intend to ask to be referred to a PT within my local area.

Osteoarthritis caused bone loss on some of my cervical vertebrae causing a pinched nerve and the worst pain I have ever experienced. Dr. O put three plates and six screws in place to separate the vertebra, along with some bone removal and a bone graft. I am completely pain free now. The surgery went well and I needed no pain meds at all afterward. I am very pleased with the results and would highly recommend him to anyone.

Dr. O is an awesome surgeon . I went to him with back/hip pain after a fall and he was the only one who listened to me and figured out what was wrong and told me what I needed to do. I have always been able to get an appointment when I needed one and have gotten assistance in a timely manner. This is a very busy office so sometimes you do have to wait but only once was it over 30 minutes. He has always listened to my complaints of pain and made sure we tried every option to control the pain. My first SI surgery was 3 months ago and he did the other side 2 weeks ago. Do I have pain? yes!! , but it gets better every day and with his help I am hoping to have a productive life when

Dr O gave me my life back. February 2014 surgery day 2-cages,2rods,9screws to repair L-5,L-3 double broke back . It's Nov 2019 , I workout 5 days a week . Snow Ski, Ride motorcycles, basically do anything I want . A second chance. I am 53 and my friends and family can't believe the outcome. Dr O requested that I get a second opinion, and I did, the doctor in Tyler said I should be in a wheelchair and explained he would have performed the same surgery as Dr O . THANK YOU Dr O. I have recommended him to several friends and people I have met . They have had very good results also. Do I still have pain? Yes but it's very small, and not all the time due to nerve damage from not getting surgery sooner , my fault. It's mostly after very strenuous occasion. Sincerely Donnie W

Dr Ogunseinde was very polite, professional, and easy to understand. He explained my surgery procedure and the events that would take place before and after my surgery. I had the C-3 thru C-7 fusion and my results have been above expectation. The pain before surgery was unbearable, the numbness, tingling going down both arms were getting worse. But after surgery and the healing process I am pain free with no tingling nor numbness. One great surgeon.

BEWARE!!!

This Dr is a smooth talker & can be very convincing when recommending surgery. You may hear things like, surgery is the best option, you have nothing to worry about, you will be walking the next day, you will only spend a few days in the hospital, no huge cuts or scars, just a couple of holes, 75% (at the least) pain free!!! Of course at this point, he has your full attention and after questioning the doctor about the above claims... The silver tongued Dr. convincingly repeats the words: NO CUTS JUST A FEW HOLES WALKING THE NEXT DAY FEW DAYS IN HOSPITAL 75% PAIN FREE Then he asks, Why wouldn't you have the surgery? HE SPOKE WITH SO MUCH CONFIDENCE, I UNFORTUNATELY FELL FOR IT! HUGE MISTAKE! Looking back, I should have realized he was trying to hard to convince me into agreeing to the surgery. However at the time, I foolishly never thought he, being a doctor would be anything other than truthful. TURNS OUT I WAS WRONG

Very pleasant experience. Heard good things about him before making appointment it self. Because of hand pain made appointment with hand doctor in Dallas. They referred me to spine Dr. Made appointment in Dallas itself. But wanted to see spine Dr In Longview itself. Worth the decision, he listens, explains the X-Ray's, treatment was also least aggressive and pain relieving plan. In his consultation room loved the board asking patients to pray for him to continue good thoughts and good service.

Excellent Doctor.

Dr. Ogunseinde performed lower back surgery on me in 2019. Turned out excellent. I now have additional problem in my SI joint. I have every confidence that he can repair it. He is a very tallented and caring doctor.

Awesome Ortho!

Dr. O is awesome! He fixed my back after spending thousands on a chiropractor with no relief. He knew exactly what to do after a quick x-ray. Sent me to pain management to satisfy Medicare, then did my surgery. He insists on a full year of follow-up visits spaced every three months. He is a God send for me.

He's been right about everything so far. He's quick to bring up X-rays and show you the problem. He's quick to show you what he's done, and equally timely to show you similar X-rays of others in an anonymous way to demonstrate previous success. Seriously, the only reason I didn't give 5 stars is because of an experience with a scheduling staff member.

I had a pleasant visit with Dr. Babajide Ogunseinde on January 27th 2022 at Longview OrthoPedics. He is an excellent doctor and he addressed all my medical concerns for my medical procedure. I had heard great reviews on him from previous patients, nurses, colleagues and medical vendors. Dr. O. did not disappoint, every remark was true. I will put my trust in him to do my medical procedure because he is smart, knowledgeable, very caring, and has great office bedside manners. Thanks Dr. O. for being the best at what you do.

Third time is a charm. After seeing two other specialized physicians for several years, Dr. Ogunseinde is the first to identify the problem on the first visit and come up with a plan that didn't immediately involve intensive surgery. He took the time to understand all my symptoms and complications as well as my concerns for a treatment plan.

About

Babajide Ogunseinde, M.D., is a board-certified orthopedic spine surgeon with Longview Orthopedics Regional Clinics. Dr. Ogunseinde attended college at Virginia Commonwealth University in Richmond, Virginia, and medical school at Howard University in Washington, DC. He attended residency for Harvard Combined Orthopedic Surgery at Harvard Medical School in Boston and completed his fellowship in spine surgery at Harvard Medical School.

Dr. Ogunseinde has been practicing in East Texas since 2010 and is a member of the AOA Medical Honor Society, the American Academy of Orthopedic Surgeons, the North American Spine Society (NASS) and is a AOSpine Member.

Dr. Ogunseinde specializes in the diagnosis and treatment of surgical conditions of the adult cervical, thoracic and lumbar spine. He offers spine care of a range of spinal conditions, from acute injuries and degenerative conditions of the neck (including cervical disc replacements) and lower back (such as disc herniations, spondylolistheses, and spinal stenosis), to more complex conditions such as adult scoliosis, spinal infections, fractures and spine tumors. He performs complex scoliosis correction surgery in adults both staged and unstaged. He also performs minimally invasive spine surgery, which includes kyphoplasty for osteoporotic compression fractures and other pathologic fractures from tumor. He also performs percutaneous pedicle screw stabilization for spine trauma and degenerative spinal conditions, as well as sacroiliac joint fusions. He has interests in general orthopedics including orthopedic trauma.

Dr. Ogunseinde is very professional. He assesses the problem area and sends you to get the necessary testing. He reviews MRI in front of you at your visit and thoroughly explains what is going on and how he can help to fix it. He is straight forward and I love that about him. I feel blessed that he will be doing my back surgery.

My husband sees Dr. O and he just loves him! He listened when no one else was understanding Bob's pain and knew exactly what to do! He and his staff even went out of their way to help up get the second surgery before the end of the year! (...

I had neck surgery in August. Dr. O did a wonderful job! I can't recommend him highly enough! He is very professional, but also has a great "bedside manner." He called to check on me the day after surgery & again the next day. If you or your family or friends need surgery, Dr. O is the BEST!!!

Dr O is a really good doctor. I had surgery on my neck, I was having really bad headache's and he fixed it. But my problem is not with him. It's the lack of information from his nurse that is the problem. I'm waiting to have surgery on my lower back from a herniated disc. I've been out of my meds for four days and still nothing has been done. She didn't call me back after leaving numerous message's. Instead of her saying that he was not there to clear it to be filled. She just ignored me.

The stories I heard before coming here, the comments on their reviews, and comments heard while in the hospital shortly after my surgery (from nurses in outpatient!) all reflect the experiences I had as well. I was warned beforehand by at least two different people not to use them, but couldn't find anywhere else to go quickly. Dr. Ogunseinde was the doctor I saw and who ended up performing my surgery. To be clear, I like Dr. O and think he himself did a great job. The office staff, however, are absolutely terrible.

They NEVER answer their phones, didn't return a single message from voicemails, close early when the doctors are not there despite office hours, and they are rude. I left at least 5 voicemails over several months, and never got a single call back. The office manager called me only once to tell me a surgery slot had finally opened (well over a month after the decision to perform surgery was made and I was told they would schedule it and contact me), and ask if I wanted it. I said yes and was told she

quickly. Dr. Ogunseinde was the doctor I saw and who ended up performing my surgery. To be clear, I like Dr. O and think he himself did a great job. The office staff, however, are absolutely terrible.

They NEVER answer their phones, didn't return a single message from voicemails, close early when the doctors are not there despite office hours, and they are rude. I left at least 5 voicemails over several months, and never got a single call back. The office manager called me only once to tell me a surgery slot had finally opened (well over a month after the decision to perform surgery was made and I was told they would schedule it and contact me), and ask if I wanted it. I said yes and was told she would call back as soon as it was scheduled to confirm dates/times with me. Never called me back. The only reason I found out about my surgery and pre-op appointment was because the hospital called me to set up payment for it. This was Friday evening at about 4PM, and the pre-op was Monday morning at 10AM.

I went to the office, and they were already closed at 430PM, despite office hours on door and website clearly stating until 5PM. Melanie did finally call me again: Monday morning at around 830 AM to tell me my pre-op appointment was at 10AM that morning.(!!!)

They do not fax over prescriptions to your pharmacy, and it has literally taken days to weeks to get prescriptions filled, and both times it required the pharmacy faxing a request to THEM to get it, and even then it took several more days.

I would NOT recommend Longview Ortho strictly based on the office staff. I sincerely hope Dr. O gets a replacement office manager, because other than dealing with her, I really liked him and I feel like he really helped me.

This physician might be good at surgery, but aftercare and concern for his patients are non existent. He refused to come to hospital for a patient in the ER and was unavailable to the patient for more than a week. The office manager is rude and cannot seem to keep the truth straight. Worst of all, the physician prescribed a medication he himself identified as the cause of a serious and adverse reaction for this patient.

My son was in a horrible car accident and has compression fractures in his spine. Dr O was recommended to by the Emergency Room Staff so I phoned to make an appointment. We don't have insurance, but we're quite capable of paying in full in advance and we made that clear. But, they refused to treat us. We spoke to Laura. No insurance, no treatment.

Babajide Ogunseinde, MD (Owner)

My son was in a horrible car accident and has compression fractures in his spine. Dr O was recommended to by the Emergency Room Staff so I phoned to make an appointment. We don't have insurance, but we're quite capable of paying in full in advance and we made that clear. But, they refused to treat us. We spoke to Laura. No insurance, no treatment.

1 like 2 shares

Mr. Kippers, thank you for sharing your comments. I am very concerned by them and would like to learn more about them. Please reach out to me at 903-758-2746 ext. 236 so that I can hear more about your experience and see how I can help.

I look forward to speaking with you.

To say the least, Dr O was very attentive to my concerns as a patient. He went over everything that I had brought with me as far as MRIs and surgeons notes for my past surgeries. He empathized and sympathized with me as we went through the process. He was very knowledgeable on what needed to be done and for that I am very thankful and appreciative. I would recommend Dr. O to anyone that ask about a spinal surgeon.

I feel that finding Dr. O for my leg problem was a blessing...I've been going to doctors for 2 1/2 years about my problem and all they could say was " well this maybe the problem" after sending me to 2 MRI's, nerve mapping and checking for blood cloister say " I think it may be this, let's do more test" they were just running up the money ...well enough about that....Dr. O looked at the MRI, Nerve mapping and here's the problem and it should take about 20 minutes to fix it ...he was very nice, he told me in a way that I could understand, he answered my questions, he didn't seems to be rushed to get somewhere else, he didn't beat around the brush meaning he was straight forward (I like that)in short I was very pleased with Dr. O ...I'm Cliff Gilland and I approve this message ...

Dr. O. has such a pleasant personality that puts the patient at ease. Then, he explains the problem and solutions in language that one can understand. My questions were dealt with in a manner to clarify; I didn't feel hurried for asking them. I can honestly say that I had a positive experience and would recommend Dr. Ogunseinde to my friends.

Doctor Ogansiente orthopaedic at Longview Texas is a wonderful doctor has compassion however his staff is lacking compassion and personability. You can leave many many messages but they never return your calls. The only way I could talk to the Dr. was to make an appointment. Yes we had the pandemic which messed things up a bit but I had to wait almost a year before they set up my First surgery out of 3.

I was injured in the service years around 1971 when at duty of the coast of Vietnam. Years later starting in 2014 I looked for the best Orthopedic Doctor in Longview. After several falls due to peripheral neuropathy I started treatment. Physical therapy, pain shots, acupuncture and a brief try with try with chiropractic over the year. Nothing helped...!

I was taking Pain med twice sometimes 3 a day. I got to a place where I could not sleep well. Finally Dr. Ogunseinde came up with a long term plan starting with neck surgery to correct years of misalignment and disc disease. The operation was a total success. Then the next four years of correcting a totally wasted back. Needless to say I'm off most of the pain meds and doing quite well. He is a great Doctor, compassionate and caring we are lucky to have an orthopedic doctor of his caliber.

Dr. O truly cares about his patients. He explains EVERY problem, procedure and what shows on your Xray where I can understand the medical terms. Employees are very friendly and helpful. Guess the ONLY complaint I have is their hours. They close at 4 and turn the phones over to the answering service between 3:40- 3:50. And, have no one to answer calls when they are gone to lunch. Just really hard when you need to talk to a nurse.

 Babajide Ogunseinde, MD (Owner)
3 years ago

We're so glad you had a great experience with Dr. O. We continually work on being better on communication and it sounds like we still have improvement to make. I appreciate you sharing those thoughts so we can make your experience better.

From the very first visit Dr. Ogunseinde was VERY cordial and professional. He explained all x-rays and MRIs. He said, "Mr. Worden, I can fix you ". He explained the procedure completely. The procedure was a COMPLETE SUCCESS. From day one, NO MORE PAIN. Three months later, NO MORE PAIN & COMPLETELY SATISFIED

I just went and saw Dr. O for my back problems and had a very great experience. I worked with Dr. O in the OR for years and he has always been a joy to work with. He is very professional and knowledgeable and you can tell he loves what he does. If you are experiencing any back problems or orthopedic issues I would highly recommend seeing Dr.O!

I am new to the area and was referred To Dr. Ogunseinde for back issues. I was skeptical because of prior experiences but was so impressed he was very friendly, took his time to go over the test results and set a plan in motion right then to fix my back. I look forward to working with him in the future.

Dr O is amazing! He is a straight shooter who gets right down to business and tells you what your problem is and how to fix it. He immediately was able to relieve my pain with a well placed shot in my back. Can't wait to see what he will do for permanent relief.

 1

Third time is a charm. After seeing two other specialized physicians for several years, Dr. O is the first to identify the problem on the first visit and come up with a plan that didn't immediately involve intensive surgery. He took the time to understand all my symptoms and complications as well as my concerns for a treatment plan. I am definitely grateful for having found him.

My first visit with the doctor O was overall a good one. The only issue was that I waited almost an hour past appointment time to see him. Hopefully that was a one time thing and not the normal waiting time.

1  

 Babajide Ogunseinde, MD (Owner) 4 years ago

Thank you for your feedback Ms. Franks. We are sorry that you had to wait so long last time, and we will work to make sure this doesn't happen again.

I had a L4-S1 fusion L3-4 laminectomy and left SIJ fusion about a month and a half ago and it has been the biggest blessing! I'm a single mother of 3 children and was barely able to pick up my 2 year old or take care of them like they deserved. I decided to go see Dr. O after being referred by my primary care physician and from the first visit their staff and Dr. O have been nothing but wonderful! I had my surgery and Dr. O came in before to go over the procedure and then after to see how I was doing. He assured me that he could fix me and he did just that! I'm able to play with my kids now..ive started exercising again and just feel like I've been given my life back! There is no one better than Dr. O in my opinion!! The surgery was one of the best decisions I have ever made!

Dr Ogunseinde really listens to you. Pleasantly humorous, not stuffy at all. Doesn't talk down to you and with his pedigree he could. I have seen several ortho spine doctors here, Tyler and Shreveport. I don't have to look anymore or continue getting 2nd opinions. I will probably regret giving him such a good review because more patients means longer times in scheduling my appointments. I drive from Texarkana and it's worth it.

I really like Dr B.Ogunseinde. He has done surgery on me before and fixed that problem. This visit we talked about my issues and how he would fix it. He explained everything that needed to be done. He did not try to rush me, he said to me think about it and pray about and when I'm ready he could get done. You don't hear much from doctors about praying and that impressed me. Yes I would recommend him to my family and friends.

Dr. Oguseinde did multiple fusions. I am 3 and a half months out. I can't say enough good things about this great surgeon.. I am able to get around now without hollering because my back hurts. It is amazing how good my back feels now!!! I highly recommend this wonderful doctor, if you are having back or neck pain. I have to get him to check out both of my shoulders in the future.

Dr O and his staff have exceeded all expectations from the first minute, through surgery and post surgery. His attitude, patient first driven actions have been incredible. The staff is equally excellent! My mom (80 years old) had spinal fusion surgery back in November and I am so pleased with the results. Thanks to Dr O and the team ! I could not be more thankful or impressed.

Dr. Babajide Ogunseinde is the best. He did two procedures on me the same day. I must say, you cannot see the scars unless I point them out. I am forever grateful to him. He did an excellent job. I did not feel like I was a just a patient or a number. He really cares about his patients, he listens, addresses your concerns and make you feel comfortable whenever you're at an appointment. I'm recovering and feeling better. I would refer any friend, family member or colleague. When Longview OrthoPedics hired Dr. Babajide Ogunseinde, they hired the best.

Dr.O was absolutely the perfect surgeon to safely repair neck damage done during an auto accident.
Completely eliminated physical issues exactly as described pre surgery.
Can not over state his capabilities.
To say he is a wonderful and capable doctor is an understatement.
Bless you Dr O

My experience was great. I had a bad car accident which resulted in me having a broken back. Dr. O performed surgery on my back on the 17th of August and I can already tell a difference. I want to thank his whole team. Especially Dr. O. Thank you so much.

Sincerely,
Rani Singh

I loved Dr. O's understanding and willingness to help me with my problem. He is very knowledgeable . He tells you what he sees and doesn't pressure you. Even if you haven't had a procedure done by him and done one somewhere else he won't turn you away. If he can correct it he will. I've looked for a back doctor like him for a longtime . I suggest you go see Dr.O if you ever need a good back surgeon.

I was scheduled for surgery originally on June 24th, had pre-op done on June 18th! Surgery got canceled and rescheduled to June 17th because they said "he is out of town". Then it got rescheduled again for July 1st then for July 8th, then canceled indefinitely. Come to find out "he is not allowed to do surgeries at this time"! So my question is, why in the Sam Hill did they schedule me surgery in the first place!? And why did they keep rescheduling!? And another thing, the medical assistant is not very responsible at all. Takes her 4-5 days to return a call! I've been waiting since July 3rd for a another Dr referral! This is the most irresponsible and unprofessional place I've ever had to deal with in my life. I am not a happy camper and my patience is wearing thin! I DO NOT recommend Dr. OGUNSEINDE to anyone! Rant over!

This Dr Ogunsundi Did Surgery on my back September 16 2023! I Still am on a Walker! He did several Spinal Fusions titanium rods and spacers Now over a Year and Half later..and I still can't walk without a walker! I'M having another Back Surgeon do another surgery in July to try to fix it. Please Research Him Before you let him do surgery on your back. Screws are loose in my back and lots of problems from the surgery.

Dr. Ogunseinde did surgery on my lower back that required a fusion the day before Thanksgiving 2024, and I can't say enough good things about him. He's knowledgeable, professional, thorough and kind. I'm not at 100%...yet, but I'm getting there! When you undergo a major surgery like mine, recovery takes awhile. Your mental state towards your recovery is just as important as the surgery itself. I still have bad days with pain, but they are becoming fewer as time passes. I am thankful that Dr. O was with me on this journey and has made it as pleasant as he can during my healing process. I would recommend him to anyone that's in need of help.

I'm leaving this review. Care deeply about. I am someone that has had multiple different fusions on multiple different levels. So I've been around the block on what is cared for. This doctor is average in what is very good. But the medical system, the hospital that treat the patient during an afternoon of surgeries or horrific. I am someone that participated in doctors without borders and this is a medical facility reminds me of a third world country. Multiple people never washed their hands. They must have moved the person I cared about 6 times before. They actually got to the waiting room. She came out of surgery in a scarring pain on the opposite side of her body. Pain remained that way till this day. They did not follow-up on her pain. Medication did not follow-up on her nerve. Medication took a week 4 days before they would respond. I think we called 7 times because I keep a journal for this. Just to get physical therapy call back. We have since sought medical help at Azalea Orthopedic and Tyler which is night and day compared to regional medical system. I suggest for surgeries. You use Azalea Orthopedic and for your main medical testing used Christus Medical System. Regional is where you go just for a cold or maybe a broken arm. Do not go for anything major. You will be neglected and forgotten about. Tremendously. I really hope this helps someone.

I had surgery in August of 2023. I am in more pain after my surgery than I was before. I hurt on my right side and hip. Now both hips and legs and back hurt. I lose my balance a lot. I can not describe how miserable I am. Do not use this Dr. For sure don't count on his office for help. He wanted to put more screws in. My insurance denied it. So he said legs go ahead and do your neck surgery. After the pain from my lower back and the infection I got that almost killed me. There was no way I was letting him do more surgery. I can not tell you the horror stories I have heard all over the place about him since. Bet this will be taken down too. I'm disappointed in my outcome. I never wanted to feel like this.

This man saved my life! God has blessed this Dr. I have been basically pain free since my surgery. He fused 5 and replaced 2 discs. I have never felt better in my life! I love this doctor and again he saved my life! No need to go to Tyler or Dallas. Ogunseinde is an expert! Trust him

Dr.O. Please feel free to use my images for proof of your successful surgeries! I was in very bad shape, but you changed my life!

Dr. BABAJIDE OGUNSIDE seen me 1 time and ordered MRI'S and injections xrays. I thought he was on top of everything. But no unfortunately there staff hardly answers the phone. I even texted Maria his go to lady for when you cant get ahold of anyone. Hardly ever get responses. I had a 2nd appointment i was supposed to go to but the day before they cancelled and said i needed another referral for Rebekah Taylor. So then i got that and i was supposed to go in tomorrow Thursday for a follow-up to have them read my MRI'S To me. They cancelled again and they will not tell me anything regarding my tests and xrays. They told me yesterday the doctor (dr.BABAJIDE OGUNSIDE discharged me and i should receive a certified letter in mail. This place is a disaster. Luckily i had a back up plan to see a different doctor somewhere else in the future. Im stuck in pain with a herniated disc in neck and hemangiomas and other stuff wrong. I DONT RECOMMEND THIS OFFICE AT ALL. YOUR not important to them. Thats how i feel. Like im not important. I just wanted to get fixed so ultimately i could hopefully get off these pain pills. But nope they never really cared.

Wow! Where do I begin with why I give 5 stars?? I will say that he saved me from being in a wheelchair at 37 yo.. I have had a total of 5 spine surgeries, and he has done a total of 2.. he fixed a previous surgeon's mistakes, and assured me that I would improve greatly with time.. he takes his time with each visit I have with him and treats me with such a good bedside manner.. I'm very thankful for this precious soul who I call my doctor and my friend. Thank you Dr. O for saving my life and getting to the bottom of each issue that may arise. I greatly appreciate you more than words can express!!! May God bless you and always keep up the good work!

#hesgotmyback #5spinesurgeries #angelsentfromheaven #thankyoujesus
Love, April Moore Vineyard ❤

UPDATE 8/13/2023
I wanted to add another review about this wonderful doctor who has really taken me under his wing!!! I had to have a SIJ revision on 7/14. I've had a great amount of setbacks but I know I'll get there to being 110% healed. I've had some issues but every single concern I've had, he has ALWAYS taken such amazing care of me!!!! I've never met a physician that truly cares about his patients like he does, I wish I could have had him do my first 3 spine surgeries but he's continuing to fix me up.. I have 100% trust in that doctor, he's always been my angel. I owe him so much. Thank you for everything, Dr. O!
Love,
April Moore-Vineyard

I am so glad to have found out about Dr O!! I have had back issues for years and no one has been able to give me any relief nor could diagnose the problem. Dr O figured the problem out within a few minutes of the first visit and within a week, I had a minor procedure that has given me major pain relief. He has also done miracles for my wife who has been to numerous other doctors with no luck. Dr O identified her problem as well and fixed it with a simple procedure. He explains things and shows you the tests results so that you can understand what he's doing to correct the problem. We are both extremely pleased with our results!!

If I could give no stars I would. This "doctor" performed 3 major surgeries in 7 MONTHS on a family member of mine and NEVER recovered only to be in more pain, infection, etc for years! We finally found a WONDERFUL doctor to fix what Ogunseinde did. We are thankful we found someone to fix his terrible mistakes and blessed he was able to fix it. Think before you choose to use him. Please.

After DOI

Search of the most recent address provided by the background search leads to an online listing for Subject.

The screenshot shows a web browser displaying the USPhoneBook website. The URL in the address bar is <https://www.usphonebook.com/babajide-ogunseinde/U0IDMxUTNwkTMxkjNwkTNyUDO10yR>. The page title is "USPhoneBook". A search bar contains the text "Search". Below the title, there are navigation links for "Home" and "Babajide Ogunseinde". The main content area features a large blue header with the name "Babajide Ogunseinde". Below this, a sub-header states "Babajide Ogunseinde Age 49 lives in Longview, TX". A text block provides information about the subject's current residence: "According to public records, Babajide Ogunseinde currently lives at 409 N 6th St, Longview, TX 75601-6536. The phone number Babajide Ogunseinde is currently using is (240) 353-8281 with the carrier Sprint Spectrum LP." A descriptive paragraph follows, mentioning various aliases for the subject. Below this, a section titled "49 years old" is shown. Further down, sections for "Current Address" and "Current Phone Number" are listed, each with a corresponding icon and the subject's details.
