Two selfie photos are on Subject's first Threads account, speedwipeking, and on his second Threads account, wipewonder, where he primarily shares posts and images, though several videos of his detail work from 2024 are included.

Subject mentions an injury, post DOI, in a post on Facebook: "severed a foot Wednesday going home

Sunday..." Photos of Subject's foot were found on the Westbury Class Reunion page. A GoFundMe is mentioned in the post, but it could not be located.

To be noted, the provided video is no longer available on any of Subject's accounts.

Google reviews are associated with Subject's email from background search, speedwipeinc@gmail.com. The reviews span from 2 weeks to 12 years ago. The most recent review was left on a medical center in Hicksville, New York. Several other medical-related reviews are also available: a urology center (2 months ago), an audiologist (11 months ago), and a doctor (a year ago). Subject does not provide any information regarding possible past injuries or health concerns in these reviews.

No additional information regarding the current claim was found on any social media of Subject's associates/relatives.

You are the biggest investment!!! Focus on what you have to do to maintain! It's all about maintenance things go up and down you have to have a solid plan to survive keep in mind that your plan is for you someone else's plan is not going to work for you because it was not designed for you you have to find your own way and travel your own path in order to be who God made you to be a mind is a terrible thing to waste but you have a choice to utilize your skill set or remain idle that will be the deal breaker in your life to either do something with yourself or not you hold the keys to that hopefully you make the right decision! Clean up your house! Now is the time to clean house get rid of everything and everyone that disrupts your energy and growth! You have to remain focused our biggest distractions comes in the form of people that enter our lives for various reasons some are keepers and others are just passing by never do permanent business with seasonal people because seasonal people are not permanent fixtures in your game plan they just serve whatever purpose or lesson God placed them in your life for and that's the end of the story it might be for a day a year or a few or many years but it's not forever so please learn to follow your instincts and make the right decisions for your plan and purpose we are moving forward onward and upward there is no going back! Keep up with your thoughts! What good is a dream if you don't try to turn it into reality? How do you think stars are made? They had a dream or a vision and they aspired to become what the dream told them that they was capable of becoming you have to work at your dreams to make them happen pretending to be something you are not is only lying to yourself you have to devote yourself to your aspirations work hard dream even bigger and surpass your own expectations that way you position yourself to be even greater then you thought you can be we have to make our ideas reality faith without works is dead click on that work ethic and hustle your goals only go as far as your mindset keep your hunger at its highest peak and you I'll elevate in all you do! It's all about momentum! Keep that energy maxed out! When you get locked in great things happen focus is always the key with your hard work and determination in play that focus is the X factor to guide you to the apex of your goals sometimes you have to detach yourself from everything around you so that you can lock in and capture what you need grab to take you to the next level it's not an easy road to the top but you can get there if your focus and spirit is willing you hold the keys to your elevation nobody can motivate you better then yourself you are the one that has to do it ! Happy Sunday God bless. #blessed☺☺

Only one person can cross the finish line first! In life you must realize that you have to run your race being a good person does not always mean you have to carry someone else's burdens at all times we all have issues that we have to deal with in life but some people put their problems on you and expect you to remedy them for them we all are responsible for the situations that we get ourselves into think before you act and process possible outcomes before you go thru with what you are about to do that way you can make the best decisions moving forward run your race for you it is not your responsibility to save the world ! So many people are destroyed by broken promises you cannot live life on could have should have or would be what is meant to be yours will be yours if you just go out there and hustle for it it's not gonna drop out of the sky and fall into your lap be persistent in your quest for knowledge learn to earn your stripes accept your failures and Chris your victories it's all a part of the process but always remember there are some people that would like to see you succeed but not be as successful as they are you would be surprised at some of the people that fit in this category they could be right under your nose stay woke! Execution is the key! Your plan your objective your vision is all a blueprint that has to be put into play. You cannot think big and then not back up those thoughts with proper execution there are people that talk a good game and then there are those that actually back up what they say you have to focus on your thought process and use your ambition to execute your game plan and go from there every monumental movement started with a plan but it didn't grow to be a game changer without execution be about what you portray yourself as otherwise you are only fooling yourself and that is the worst thing you can do you have nobody to impress but you stay focused and execute! You are the hustle! Nobody is putting you on! Stop waiting for the plug or the hookup to get you to the next level the formula for success will always remain the same prayer hard work and dedication there is no X factor or secret sauce that you apply to the principle of hustle it simply states to get up off your behind follow your plan and get to work so do not envy the next man if they have more then you or they are doing better then you are every single person has a gift that thy just have to tap into to produce a lifestyle that they deserve if they claim it some people want to reap the benefits but do not want to put in the work that is utter laziness and an attitude of complete failure wake up say a prayer and HUSTLE! Set your own standard and do not bend! Stop trying to please people and please yourself if you sit down and worry about what everyone thinks about you you are never going to elevate yourself. You cannot please everyone there comes a point in life where you have to just put your foot on the gas and keep going anyone or anything in your path is going to have to step aside or get run over you are on your mission your purpose in life the path that God put you on and nothing or nobody is going to interfere with your momentum we tend to slow down when we worry about the opinions of others and what other people have or what they are doing that should not be a concern of yours when you are trying to establish yourself focus remain locked and loaded and all that other stuff will take care of itself remember you got your back nobody else does! The crowd only leads to turmoil you have to do your own thing and be that storm cloud that stands out in the sky treasure hunters look for that rare gem and when they find it they assess its value and then sell it to the highest bidder you are that rare gem only you are not for sale your value goes up with time because you are rare and one of a kind it is very hard to find rare things so when you do cherish them and keep them safe! Addition by subtraction! As we close out another year the evaluation process has begun you have to look at all the things you did and who you did them with and decide if you are taking those things and people into the new year life is all about maturity and growth if you are not growing with a person or a situation it is time for you to sever ties there is no sense in dragging it along especially if it is not doing you any good false hopes and expectations are just as bad as lies they only lead to bad things and we all need to keep our energy positive so do your evaluations and list the things that helped you and the things that held you back eliminate all the bad things and move forward with the progress that you have achieved it is the only way to close out a year properly! Stop fighting for people God removed from your life! Vibes are real and energy is important when you have people that you are involved with dealings are supposed to go smoothly no everyone is meant to be in your life some people make life easier and others complicate matters your brain can lie to you all it wants but your heart is always going to reveal the truth you can feel when something I wrong and that gut feeling is always precise so if you have people in your life that is always taking and never giving and you are there for them when they need you but coincidentally they are always busy when your in need those are the ones to fire! Get rid of them expeditiously because they will only bring you down and we are closing out the year and we are trying to level up leave all that baggage behind in 24 we are moving forward onward and upward! Close it out properly ! We all make promises to ourselves but sometimes we let our foot off the gas and renege on those promises out of comfort you have to apply discipline and dig deep in order to get to the next level we all know that is not an easy task but what worth while is ever easy? You gonna have to lose something to gain something your mindset is your greatest asset but it can also be your worst enemy make the decisions on what you are doing and whom you are doing it with is it going to elevate you or is it going to set you back further we are supposed to be moving forward that is always the plan do not take a backward approach some things are meant to be left in the rear view mirror ! Keep hustling ! The faucet does not stop running until you turn it off! We are designed to produce and the only way that is going to happy is if you keep yourself busy being involved gets your results and if not you gain insight leads ideas and then you can formulate a plan and pursue a course of action do not become slothful you will become depressed and start to rely on others to do what you are supposed to be able to do for yourself it's not easy we all struggle with something but without struggle there is no success you have to learn how to lose before you know how to win building an empire brick by brick requires a lot of mental maneuvering keep your mindset open and your vision clear it will help you to overcome! I am reaching out to our Westbury community, especially our fellow alumni from the classes of 1980 to 1986, to rally behind our friend and classmate, Don Roberts. As many of you may know, Don has recently been hospitalized, and his brothers, Gary and Russ, are deeply concerned for him during this challenging time. Don has always been a generous spirit in our community, known for his hard work as a dedicated car detailer and for lending a helping hand to those in need. Now, it is our turn to show our support for him. Due to his current condition, Don is unable to work and is facing financial challenges. Your contributions, no matter the size, will significantly ease his burden and allow him to focus on his healing and recovery. Please consider donating to help Don during this difficult time, and feel free to share this message with others who may want to support him. Remain solid for yourself! Your personality identifies who the real you is. Some people change around others some people let things change them but real people remain solid under all circumstances life happens we all face trials and tribulations but how we handle them is what defines us you want to be that face that stands out in the crowd not blends in to be a soldier that is ready to battle any war that come your way never become a yes man a person that agrees to things to just gain an unearned status that's not the way to elevate your mindset stay solid and humble and you will progress the right way! Sorry but not Sorry!!! Every act a person commits that person knows what they are doing ! When someone violates you or hurts you after the act is committed they either decide to apologize by saying they're sorry or not. If someone attempts to kill you and the bullet misses you your life was spared if that person apologizes to you by saying their sorry you can choose to forgive them but would you give them another chance to try to kill you? If you keep stepping in the line of fire eventually you are going to get burned! Experiences are for reference learn from them if you keep doing the same thing over and over again more then likely the results are going to be the same be wary of those you keep in your company learn from your interactions and make a decision if you want to move forward with that person or just keep your distance it can be a decision that saves your life everyone is not sorry when they claim to be be wise and listen to your intuition ! Happy Sunday God bless. #blessed☐☐

When someone violates you or hurts you after the act is committed they either decide to apologize by saying they're sorry or not. If someone attempts to kill you and the bullet misses you your life was spared if that person apologizes to you by saying their sorry you can choose to forgive them but would you give them another chance to try to kill you? Trust is the foundation of all things! When you trust someone or something life is very easy trust makes things flow smoothly and it creates an atmosphere of ease once that trust is compromised every element of that atmosphere changes the way you look at things the way you approach them the way you interact is all off balance I would say that once the trust is broken you can never look at a situation or a person in the same fashion that exclusive level is now tarnished so going in to dealings will never feel the same because you have that breach of trust in the back of your mind and you cannot fully commit because of your skepticism so the moral of this post is to remain solid do true things do not present an image of yourself that you cannot sustain remember everything on social media is not verified acting is not just for the movies real people do real things and you can trust that because you have dealt honestly with people keep it real and everything will be alright you have nothing to prove to anyone but God and yourself happy Sunday God bless #blessed☺☺

Act on those impulses! Action makes things happen a thought is only a thought without action behind it so many of us want to be something but it only ends with a thought you have to put in that work to access that level when you have a good idea you have to formulate a plan and put it into play if you do that your thought becomes that dream that you turned into reality stop following someone else's plan and act on your own a mind is a terrible thing to waste so many people have so many great plans but never act on them but the ones that do are the most successful people in the world aspire to be great in your own mind and then act upon it do not worry about what the next person has accomplished or what they are doing follow your own heart step on the gas and keep your foot on the pedal until you reach that destination the sky is not the limit we are doing the universe!!!!
