These pictures are from a day trip to Fussen, Germany to Neuschwanstein Schloss. Then our hotel in Salzburg, a Celtic Village near the salt mines we toured, dinner, Salzburg at night, and the horrible, seatless train ride back to Bregenz.

🇺🇸 DC Day 4 🇺🇸

Today was our last day of touring. We started the day at George Washington's home, Mt. Vernon, and spent the rest of our day exploring museums in the city.

Bible Museum and Mt Vernon!

Pretty sure I walked around 40 miles for the week !

**79th SWCS International Annual Conference Updates**  
July 21-24, 2024  
Myrtle Beach, South Carolina  
[www.swcs.org/24AC](http://www.swcs.org/24AC)

Mark your calendars for the 79th SWCS International Annual Conference! This year, we are bringing our conservation family to a place where families gather every year to witness the region's natural beauty and enjoy one another's company.

We will assemble a diverse, multigenerational conservation network of researchers, practitioners, industry leaders, farmers, and students from around the world to [Myrtle Beach](#), a coastal community in South Carolina, just minutes from the North Carolina border. Surrounded by breathtaking scenery, Myrtle Beach and the other coastal communities along the strand showcase the charm and vulnerability of our world's great ecosystems. From the beaches, you can view islands and inlets surrounded by coastal wetlands. Coastal ecosystems transition upriver to a diverse agricultural area covering two-thirds of the state, including peanuts, corn, cotton, livestock, and timber production. From there, a sharp rise in elevation leads into the Blue Ridge Mountains, a beautiful section of the Appalachian Mountain Range.

This year's conference theme, "**Rising Together: Collaborative Conservation for All**," challenges all conservationists to rise to the great challenges and opportunities ahead of us together.

SWCS Announces the 2025 Cohort of the Emerging Leaders Program and Celebrates the 2024 Graduates

# SWCS Announces the 2025 Cohort of the Emerging Leaders Program and Celebrates the 2024 Graduates

September 12, 2024

The Soil and Water Conservation Society (SWCS) is proud to welcome the 2025 Class of the Emerging Leaders Program (ELP) and celebrate the outstanding success of 2024 ELP graduates. This program, designed to cultivate the next generation of conservation professionals, has already shown tremendous success and impact within the conservation community.

## 2025 Class of the SWCS Emerging Leaders Program

SWCS is thrilled to announce the 2025 cohort of the Emerging Leaders Program!

The 2025 class will begin their journey this month, and we look forward to

sessions on time management and communications, and career networking opportunities. These insights will help shape and improve the experience for future participants.

Many of this year's graduates are eager to stay involved in the program, offering mentorship and networking opportunities to the incoming class. Participants from the 2024 class have already recommended 38 applicants for the 2025 cohort, further cementing their legacy as leaders in conservation.

**Kristine Whybark** you may be deficient in vitamin D, have you ever had your levels checked? I suffered from bad headaches, bruises and fatigue and found out I was not getting enough vitamin d so my physician ordered me high vitamin d2 to take once a week and I take vitamin d3 every day now. All of my symptoms have gone away! Praying for you sister!!

Got a teenager that won't clean her room? Grab a bag of black rice from the grocery store and sprinkle it around their room to resemble mouse droppings. This girl of mine totally thought there was a mouse in her room. She cleaned it from top to bottom in high heels so the mouse wouldn't run up under her feet! 🤣🤣🤣 Follow me for more mom tips! 🙌

# Lawsuit filed by Calvert City residents against Westlake seek damages

More than two dozen Calvert City residents have filed a lawsuit against Westlake.

**By Loyd Ford**  
**The Lake News**

Several Calvert City residents filed a lawsuit last week, March 18, 2024, against Westlake Vinyls, Inc., Westlake Corporation, David Huyck, Doug Niewoehner, and Bluegrass Incineration Services, LLC alleging damages from manufactured by the firms. Those chemicals specifically mentioned in the lawsuit were Ethylene Dichloride and Vinyl Chloride. The lawsuit which was filed on the behalf of the plaintiffs alleged Westlake's Calvert City plants emit over 70,000 pounds per year of Ethylene Dichloride ("EDC") and over 130,000 pounds per year of Vinyl Chloride ("VC") into the air in Calvert City.

Additional allegations made in the suit claim "The emissions from the Westlake Plants cause these toxic substances to be found in the air in Calvert City at levels that are harmful to the health of people who reside nearby, including the plaintiffs. In addition, upon information and belief, the Westlake Defendants disposed of hazardous waste containing these chemicals at property currently owned by Defendant Bluegrass Incineration Services, LLC, and emissions from this property are likely contributing to the levels of EDC and VC in the air in the nearby neighborhoods, including the property of the plaintiffs."

Huyck, who lives in Paducah, is a senior manager for the Westlake Plants. While Niewoehner, who also lives in Paducah, has senior management responsibilities at the Westlake Plants. Bluegrass Incineration Services, LLC, is a Kentucky limited liability company with its principal place of business located at 2475 Industrial Parkway, Calvert City, KY 42020. The suit alleges Bluegrass Incineration Services, LLC, owns the former LWD, Inc., hazardous waste incineration property and has incinerated waste from Westlake that contained Ethylene Dichloride and Vinyl Chloride.

No specific amount of damages was named in the filing by Mark Brent Law Center in

Several Calvert City residents filed a lawsuit last week, March 18, 2024, against Westlake Vinyls, Inc., Westlake Corporation, David Huyck, Doug Niewoehner, and Bluegrass Incineration Services, LLC alleging damages from manufactured by the firms. Those chemicals specifically mentioned in the lawsuit were Ethylene Dichloride and Vinyl Chloride. The lawsuit which was filed on the behalf of the plaintiffs alleged Westlake’s Calvert City plants emit over 70,000 pounds per year of Ethylene Dichloride (“EDC”) and over 130,000 pounds per year of Vinyl Chloride (“VC”) into the air in Calvert City.

Additional allegations made in the suit claim “The emissions from the Westlake Plants cause these toxic substances to be found in the air in Calvert City at levels that are harmful to the health of people who reside nearby, including the plaintiffs. In addition, upon information and belief, the Westlake Defendants disposed of hazardous waste containing these chemicals at property currently owned by Defendant Bluegrass Incineration Services, LLC, and emissions from this property are likely contributing to the levels of EDC and VC in the air in the nearby neighborhoods, including the property of the plaintiffs.”

Huyck, who lives in Paducah, is a senior manager for the Westlake Plants. While Niewoehner, who also lives in Paducah, has senior management responsibilities at the Westlake Plants. Bluegrass Incineration Services, LLC, is a Kentucky limited liability company with its principal place of business located at 2475 Industrial Parkway, Calvert City, KY 42020. The suit alleges Bluegrass Incineration Services, LLC, owns the former LWD, Inc., hazardous waste incineration property and has incinerated waste from Westlake that contained Ethylene Dichloride and Vinyl Chloride.

No specific amount of damages was named in the filing by Mark Bryant Law Center in Paducah.

The plaintiff’s in the lawsuit are: Dawn Michelle Garland and Mark Garland; Emily Burd, John Cimprich and Melissa Cimprich; Carol Cole and James Cole; Jason Dean and Sarah Dean; Christina Gray and Isaac Gray; Sally Hood and Stephen Hood; Bonita Jackson, Julie Lindsay and Richard Lindsay; Rachel Lyles, Rachel Probus, Justin Reed, Brian Scott and Brenda Scott; Gavin Smith, Taylor Smith, Mandy Spindler, Stanley Stevenson, Ashley Wallace and Darren Wallace; Brad Whybark and Kristine Whybark; Brandy Wininiger and Rose Wright all of Calvert City.

Example of activity shared on Subject's Facebook account Caption: I had the best glimmer today !! Someone, told me I reminded them of Dolly Parton !! I take that any day ! #bringontheglimmer

recently learned about a term called a "glimmer". Which is essentially the opposite of a trigger.

Glimmers are those micro moments in your day that make you feel joy, happiness, peace, or gratitude. Once you train your brain to be on the lookout for glimmers, the more these tiny moments will begin to appear.

2024 is almost a wrap !

An uncomfortable truth you might need to hear...

The average lifespan is 76 years.

Middle age isn't 50.  
It's 38.

The days are long, but the years are shorter than you think.

If something doesn't feel right - don't settle.  
Don't finish crappy books. You don't need to.

Don't waste your time.  
Eventually the only thing you will regret is not doing more of what you love.  
This is your life. This is it.

Dedication post Caption: My heart is heavy. Today we said our goodbyes to a guy that could light up the room with his smile and laugh ! Please pray his mom, dad, and his sister as this is the 2nd time they have went through this cruel part of life. Pray for his kids and all of his family. Pray for his friends. We love you Kyle. Tell Karla we said, " hi " ! We love and miss you both. I know you are both now in a better place looking down and protecting us . Love you ! See you on the other side where there will be no more tears!

Your job as a parent is not to make your child happy.  
It is to teach them how to handle being unhappy.  
They lose the game. They don't get invited to the party. They are disappointed.  
And you see their tears.  
Your first instinct is to fix it.  
To offer a distraction, a treat, or a promise to make it all better.  
Your goal is to stop their crying as fast as possible because their pain makes you uncomfortable.  
Let's call it what it really is.  
You are not soothing their pain. You are soothing your own anxiety.  
You are teaching them that sadness is an emergency that must be erased immediately.  
In doing so, you rob them of the chance to build their own resilience.  
You teach them that they are too fragile to handle disappointment.  
You teach them that a negative feeling is something to be feared and avoided at all costs.  
A child who is never allowed to be sad becomes an adult who is terrified of the realities of life.  
They will seek constant distraction over quiet reflection.  
They will seek numbness over the courage to feel.  
Let your child be sad. Let them be frustrated. Let them be disappointed.  
Sit with them in their storm and show them they can survive it.  
That is a gift that a lifetime of happiness can never buy.

I know your heart wants things to be different.  
Especially right now.  
Because you want more from life.  
And the disappointment has tried so hard to destroy your peace.

THE ONLY BIRD THAT DARES TO ATTACK AN EAGLE IS A CROW, BUT THE EAGLE NEVER FIGHTS BACK. HERE IS WHY:

1. The crow is the only bird bold enough to sit on the eagle's back and peck at its neck. Relentless. Annoying. But the eagle... stays calm.
2. The eagle doesn't flap. Doesn't fight. Doesn't waste energy. It does one thing: It rises.
3. The higher the eagle soars. The thinner the air becomes. The crow? It can't handle the altitude.
4. Eventually, the crow gasps. Loses strength...And falls off. Not because the eagle attacked But because the eagle ascended.
5. Let the crow talk. Let them peck. You don't have to respond. Just keep going higher.
