**About BrokerCheck®**

BrokerCheck offers information on all current, and many former, registered securities brokers, and all current and former registered securities firms. FINRA strongly encourages investors to use BrokerCheck to check the background of securities brokers and brokerage firms before deciding to conduct, or continue to conduct, business with them.

- **What is included in a BrokerCheck report?**
  - BrokerCheck reports for individual brokers include information such as employment history, professional qualifications, disciplinary actions, criminal convictions, civil judgments and arbitration awards. BrokerCheck reports for brokerage firms include information on a firm's profile, history, and operations, as well as many of the same disclosure events mentioned above.
  - Please note that the information contained in a BrokerCheck report may include pending actions or allegations that may be contested, unresolved or unproven. In the end, these actions or allegations may be resolved in favor of the broker or brokerage firm, or concluded through a negotiated settlement with no admission or finding of wrongdoing.
- **Where did this information come from?**
  - The information contained in BrokerCheck comes from FINRA's Central Registration Depository, or CRD® and is a combination of:
    - information FINRA and/or the Securities and Exchange Commission (SEC) require brokers and brokerage firms to submit as part of the registration and licensing process, and
    - information that regulators report regarding disciplinary actions or allegations against firms or brokers.
- **How current is this information?**
  - Generally, active brokerage firms and brokers are required to update their professional and disciplinary information in CRD within 30 days. Under most circumstances, information reported by brokerage firms, brokers and regulators is available in BrokerCheck the next business day.
- **What if I want to check the background of an investment adviser firm or investment adviser representative?**
  - To check the background of an investment adviser firm or representative, you can search for the firm or individual in BrokerCheck. If your search is successful, click on the link provided to view the available licensing and registration information in the SEC's Investment Adviser Public Disclosure (IAPD) website at <https://www.adviserinfo.sec.gov>. In the alternative, you may search the IAPD website directly or contact your state securities regulator at <http://www.finra.org/Investors/ToolsCalculators/BrokerCheck/P455414>.
- **Are there other resources I can use to check the background of investment professionals?**
  - FINRA recommends that you learn as much as possible about an investment professional before deciding to work with them. Your state securities regulator can help you research brokers and investment adviser representatives doing business in your state.

[Thank you for using FINRA BrokerCheck.](#)

Did you know?

We want to give a huge thank you to those of you who serve and those who served.... Thank you.

In my dads name we are donating to the Wounded Warrior project to help those with PTSD. Hearing and seeing fireworks 🇺🇸🇺🇸 can truly trigger so much for our military. Be kind .... Here when you need us... Happy 4th of July ❤️.

**INDEPENDENCE DAY**  
When: July 4th | Where: United States of America

**ORIGIN STORY**  
Independence Day, also called Fourth of July, commemorates the passage of the Declaration of Independence by the Continental Congress on July 4, 1776. The Declaration announced the political separation of 13 North American colonies from Great Britain.

**TIMELINE**

- July 8 1776** First effective celebration took place in Philadelphia. First public reading of the Declaration of Independence, after people were summoned by the ringing of the Liberty Bell.
- July 3 1781** Massachusetts became first state to recognize the Fourth of July as an official holiday.
- July 4 1801** The White House held its first Fourth of July party.
- July 4 1851** The first fireworks parade was held in Lowell, Massachusetts. This sparked a tradition that led to a group of military sergeants, called the Army and Navy Artillery Company of Massachusetts as the "Assault and Mortar Club."
- June 28 1870** Congress made Independence Day an official holiday for federal employees who worked in Washington, D.C.
- 1938** Congress declared Independence Day as an official paid federal holiday.
- July 4 1960** The current 50-star flag debuted after Alaska and Hawaii became states in 1959.

**CRITICAL PEOPLE**

- THOMAS JEFFERSON**
  - 33 years old
- JOHN ADAMS**
- BENJAMIN FRANKLIN**
- ROGER SHERMAN**
- WILLIAM LIVINGSTON**
  - Fellow committee members consulted

*John Hancock*  
John Hancock was the only one to sign the actual Declaration of Independence on July 4, 1776. Others signed later.

**56 men signed from 13 colonies**

**2 signers would later become president of the United States**  
JOHN ADAMS  
THOMAS JEFFERSON

**HOW IT'S CELEBRATED TODAY**  
Estimated 15,000+ fireworks

This cracks me up because one of my trips to San Antonio, a co-worker I was traveling with asked if I cared if we checked out the local HEB. She loves wandering through grocery stores too! Must say we found some yummy local foods.

**Holly VanVleck Hambruch** Their super plus store is so fun to wonder around lol. H-E-B has just amazing customer service and the H-E-B branded items are very good quality. We've been wanting this store to open up for so long in the Northern market. Any time you want to wonder a grocery store call me lol.

Caption: I did not write this.. The way people view you. Sometimes I think about the different characters I play in everybody's story. I'm a terrible person in some people's narratives and a Godsend in others. And none of it has anything to do with the person I truly am. The lens

that others view you through is coloured by their upbringing, beliefs, and individual experiences.

Some people see your bright personality as endearing and others see it as annoying.

Some people think you're weak and emotional and others feel safe to be themselves around you. Some people think you're rude and selfish and others respect the way you stand up for yourself.

Some people admire the way you take pride in the way you look and others think you're conceited. And none of it has to do with who you truly are as a person.

What you have to understand is that you have no authority over how people view you so never try to control the way others see you because the only thing that truly matters when the dust settles down at the end of the day is what you genuinely see in yourself.

Caption: ☐☐ Alright alright alrighttttttt. Here in DFW we are almost 48 hours into below freezing temperatures. And don't worry, our physical office is open ☐. It's important to keep all cabinet doors open to all plumbing that is enclosed so warm air can flow around plumbing (Move all chemicals out of reach of children and pets). Water lines are beginning to freeze or have over night so please keep the faucets dripping. The next 24 hours is critical and we need to do as much as we can to keep the warm air flowing where the plumbing is located. If your hot water heater is in a room where there isn't a heat vent (Most homes) , open the door so the room/attic stays warm. If that area freezes you will have one heck of a mess and have to endure many days without water before a plumber can accommodate you. Here when you need us. #laurieleonstatefarm #homesweethome #automotive #coldweather #coffeetime #weareopenforbusiness #friscotx #friscotexas #teatime #localbusiness

**Laurie Leon - State Farm Insurance Agent** I was always amazed that we had the only snow shovel in Frisco Lakes. For most Texans, they stock up and buy two weeks food before it snows. Once it snows, never leave home and wait for the snow to melt.  
  
In Kansas, same logic for stocking up for food. The difference in Kansas is that the snow normally melts within two days from falling. Don't have to shovel but most do. 😊

**Rob Takamoto** I get it. I still have my shovel from Indiana and sweep off the snow fall before I head to bed. I never run to a store before a storm. My kids are older now so they don't need things that may run out during a heavy freeze. Plus, I'd hate to lose power and have to worry about the food in freezers and such. I use the freeze as a freezer and pantry clean out time 🍌

for the snow to melt.

In Kansas, same logic for stocking up for food. The difference in Kansas is that the snow normally melts within two days from falling. Don't have to shovel but most do. 😊

🌊 Alright alright alrightttttt. Here in DFW we are almost 48 hours into below freezing temperatures. And don't worry, our physical office is open 😊. It's important to keep all cabinet doors open to all plumbing that is enclosed so warm air can flow around plumbing (Move all chemicals out of reach of children and pets). Water lines are beginning to freeze or have over night so please keep the faucets dripping. The next 24 hours is critical and we need to do as much as we can to keep the warm air flowing where the plumbing is located. If your hot water heater is in a room where there isn't a heat vent (Most homes), open the door so the room/attic stays warm. If that area freezes you will have one heck of a mess and have to endure many days without water before a plumber can accommodate you. Here when you need us. Caption: Beware of Brushing Scam! A recent scam has been showing up in many states. A "brushing" scam is when someone receives an unexpected gift or item not ordered in the mail from a place like Amazon or other company. Examples of gifts include, rings, bracelets, necklaces, Bluetooth speaker, etc. The gift will have the recipient's address, but not include the sender's information or be from a known retailer. When the recipient opens the package to see what it is and possibly who sent it, there is a QR code to scan to find out who sent the gift. Once the code is scanned, all the information from that phone will be sent to scammers. They receive all access to the phone. All personal and financial information is accessible to the scammers and often the victim's bank accounts are drained. The gift can be kept or thrown away, but the QR code should NOT be scanned for any reason. QR code scams are nothing new. These scams show up in all places, including parking meters. Inform your family members about the scam and avoid scanning any unknown QR codes included in the package.

🌸🌻🌺 On this Mother's Day, I extend my warmest wishes to all. Today can be a tough day for many. My thoughts are with those who are having a hard time... I am blessed to have both of my boys with me today and for that, I am profoundly grateful. #cancersurvivor #Cancer #mom #weather #cancer #mothersday #boymom #love #chicken #laurieleon #flowers #estatesale #Grocery #coffee

Insurance. Hi,

Does anyone have Farmers Insurance for

Home and Auto and is paying twice a year?

I ask because I just received my both bills which get paid 2 days apart and ...
